

Capabilities Statement

Lighthouse Technologies, Inc.

Company

Lighthouse Technologies, Inc. is a professional software services small business, founded in 2000. Headquartered in Dayton, Ohio, our mission is to assure that software systems meet our clients' expectations.

We assist Government and commercial customers with our unique ability to manage and analyze large software and ERP implementations. With an unwavering focus on Quality, we identify application and process risks, compare team performance with industry benchmarks, and predict the cost and schedule impact due to missing functionality and quality.

Our Software Testing, Quality Assurance, and Independent Verification & Validation (IV&V) Methodologies work for custom software development as well as ERP deployments. All of our practice areas integrate throughout the lifecycle to target the highest risk areas of the system, identify the defects, correct them, and prevent their recurrence.

Capabilities

- **Full Life-Cycle Independent Verification and Validation (IV&V)**
- **Requirements Management**
- **Independent Testing**
- **Quality Assurance**
- **Predictive Metrics**
- **Program Management**
- **Organizational Change Management**

Company Principals

Jeff Van Fleet, President & CEO, has more than 25 years of experience in the management, development, and deployment of both commercial and Department of Defense (DoD) complex software / hardware systems.

Silvia Signars Anderson, Vice President, Government, is a retired US Air Force Colonel with over 25 years of experience in logistics and transportation at operational as well as senior executive levels.

Lighthouse has an experienced staff of certified Project Management Professionals, Sr. Software Quality Engineers, Sr. Software Architects, and Software Test Engineers.
